

2U, 19" Rack-Mount Layout

Running longer jobs with your 73fifty ?

Do you want to archive off your blackbox footage to a large storage server ?

- Automate file uploading from your 73fiftys using the '73fifty Harvester'.

Plug in up to four 73fifty range products to the harvester and have it automatically upload, prefix and store the files to any available network drive - or burn to DVD.

Files from each of the 73fiftys can have different file prefixes and saved file locations - e.g.

73fifty 1 : prefix with 'Diver1' and save in '\\server\diver1'

73fifty 2 : prefix with 'Diver2' and save in '\\server\diver2'

73fifty 3 : prefix with 'ROV' and save in '\\server\rov'

73fifty 4 : prefix with 'Blackbox' and save in 'c:\blackbox'

or

73fifty 1 : prefix with 'Port' and save in '\\server\pipeline1'

73fifty 2 : prefix with 'Centre' and save in '\\server\pipeline1'

73fifty 3 : prefix with 'Stb' and save in '\\server\pipeline1'

73fifty 4 : prefix with 'Blackbox' and save in 'c:\blackbox'
